The album contains 10 songs (instrumental) plus one bonustrack (with vocals), **from fast Oriental Metal to ballades with haunting melodies.**

Surely you remember Marty Friedman’s great exotic influenced albums - milestones. Or the band “Cacophony” featuring Marty Friedman and guitar wizard Jason Becker. Now, Sultan Of String **advances that exciting musical style.**

In spite of everything **Dan remains unique**, applying different musical elements from different musicians and sources, which all enrich his music.
